

Commercial Manure Spreader

High Speed – Extra Heavy Duty

Durability • Versatility • Performance • Design • Service

Nobody builds a spreader like MMI

Features

- 10ga Steel Floor** – provides more strength, longer life, and will not break or crack in freezing conditions.
- Stronger structure design** – floor cross members on 12" centers, 4 floor supports tapered side stakes to resist side bending.
- Triple floor chains** – stronger floor chains (667kKC chain; 90 ton capacity), longer life, shorter chain slats are less apt bend, 2" 1144 final drive shaft.
- High speed/variable speed hydraulic floor chain drive** – no gear box, direct drive variable speed hydraulic motor is more efficient than parallel shaft reducer, longer life, fewer components than a split shaft, cab mounted electronic controls for convenience.
- Heavy duty beaters & drive** – 4" schedule 80 beater pipe, 18 replaceable ½" AR beater teeth, easily removable beater assembly, 120 horsepower beater drive gear box.

**Compliment your entire operation
